

## Design Miami/ 2016

### **DESIGN MIAMI/ RETURNS TO MIAMI BEACH WITH A REFRESHED GALLERY PROGRAM; A FIRST-TIME PERMANENT PLAZA COMMISSION; AND RECONFIGURED FAIR LAYOUT**

**November 2016/** Design Miami/ returns to Miami Beach across from Art Basel for its twelfth edition as the meeting point of the design world's elite with a distinctly new set of projects, partnerships and programming. Thirty-one of the world's leading design galleries will exhibit, with four first-time exhibitors: Chamber of New York City, The Future Perfect of New York City and San Francisco, Mercado Moderno of Rio de Janeiro and Giovanni Beltran of Miami.

This edition reveals several pronounced highlights among the fair's gallery program – Mexican emerging and established talent will appear, with new works by Abel Zavala at ammann//gallery, Tanya Aguiñiga at Volume Gallery, and Gloria Cortina at Cristina Grajales Gallery. Unexpected materials will also be found throughout the fair, signaling a distinct inclination to the found and to the salvaged this year; ranging from new work by Misha Kahn at Friedman Benda; Hugo França's works in reclaimed indigenous woods at Mercado Moderno; and Niek Pulles of Amsterdam at Chamber Gallery presents everything from classical door frames to objects and products all found on the streets of his native Amsterdam. Visitors can also expect to see monumental solo exhibitions ranging from seminal designer Maria Pergay at Jousse Entreprise to renowned artist Giorgio Vigna at Elisabetta Cipriani.

The Design Curio program reveals six of the latest viewpoints from today's innovators and experimental designers and artists. This year's program includes Delorenzo Gallery presenting Samuel and Dominic Amoia; Michael Jon & Alan presenting Charles Hollis Jones; Patricia Findlay presenting NO SEX in Miami by Atelier Biagetti; Plusdesign Gallery presents Streetscapes; Cora Sheibani presents Colour & Contradiction; and Virgil Abloh presents a special commission for the fair.

New York based SHoP Architects is this year's recipient of the Panerai Design Miami/ Visionary Award, and has produced Design Miami/'s largest commission to date. It will also be the first time that an award recipient's work will be permanently installed in the Miami Design District following the fair. SHoP's design, "Flotsam & Jetsam," uses monumental 3D printed structural elements to create an environment that evokes the past romance and innovative future of Miami.

The refreshed fair layout offers a new visitors experience this year, starting with the large public entrance plaza, a glass façade, and totally reimagined floorplan.

## **Design Collaborations/**

At Design Miami/ 2016, new and returning design-led brands bring a host of inspired special projects to the Design Collaborations program. Audi presents *The extra hour* by LEGO, inspired by the Audi RS 7 piloted driving concept. “The extra hour,” the 25th, is a metaphor for a new kind of freedom and control over time.

Dean & DeLuca, the legendary New York gourmet market and leading international purveyor of fine food, is partnering with one of the world’s most innovative architects, Ole Scheeren, to create a prototype of his design for a unique food retail concept titled *Stage*. *Stage* presents a glowing, pristine object in polished stainless steel with the undulating topography of a bespoke, high tech display system, created for the powerful celebration of the preparation and presentation of food.

FENDI returns to Design Miami/ presenting a refined design collaboration, and Maison Perriet-Jouët marks its fifth year as a partner of Design Miami/ with a commission by American artist Andrew Kudless inspired by nature and the Maison’s Art Nouveau heritage. Louis Vuitton makes its debut at the fair with two new pieces for its Objets Nomades collection.

Airbnb will collaborate with Pedro&Juana, an emerging Mexico City-based design studio founded by Ana Paula Ruiz Galindo and Mecky Reuss. At Design Miami/ 2016, Airbnb and Pedro&Juana will present *Sobremesa*, a lively exploration of shared space. “*Sobremesa*” is the Mexican tradition of sharing time and space lingering around the table after a meal in casual conversation.

Fair newcomer, Compac, the established Spanish luxury composite surface manufacturer debuts with a site-specific installation by Paris based artist and designer Arik Levy.

## **Design Satellites/**

For 2016, Design Miami/ welcomes various designers, institutions and organizations to create programming with strong curatorial, innovative and educational perspectives. Each satellite program reflects a contemporary view onto what’s happening in the design world at large.

As part of the Design Satellites, this year’s Collectors Lounge will be designed by award-winning Istanbul-based Tabanlıoğlu Architects. Established in 1990, Tabanlıoğlu is known for cultural projects such as the Istanbul Modern and Beyazit State Library.

Iconic illustrations from the archives of the late American illustrator, John Alcorn, serve as inspiration for this year's fair identity as well as a limited edition mini-capsule collection in collaboration with Maison Kitsuné. The collection will be available at Design Miami/, The Webster and at Maison Kitsuné online and in stores in Hong Kong, Paris, Tokyo and New York City.

CNN Style joins Design Miami/ as the official news outlet for the 2016 edition of the fair. The platform will have an on-site newsroom and broadcast live daily. National real estate brokerage Douglas Elliman will present this year's Design Talks program in a new theater space designed by architects from real estate development firm, DDG, supported by the Herberger Institute for Design and the Arts at Arizona State University.

Design Miami/ partners with the United Nations on the launch of Building Legacy: Designing for Sustainability. The new platform aims to build momentum and a new movement for green infrastructure - one that will be designed and constructed in a manner that protects people and the planet for future generations. The platform will emphasize building and producing for people's sustainable futures and will bring together designers, architects, developers and producers to promote concrete solutions. Working to support the 2030 Agenda for Sustainable Development, Building Legacy is a platform for the infrastructure, architecture and design communities. The program kicks off with the Building Legacy Opening Night Preview, by invitation only, and features four Building Legacy Talks at the fair.

### **Design Miami/**

Design Miami/ is the global forum for design. Each fair brings together the most influential collectors, gallerists, designers, curators and critics from around the world in celebration of design culture and commerce. Occurring alongside the Art Basel fairs in Miami, USA each December and Basel, Switzerland each June, Design Miami/ has become the premier venue for collecting, exhibiting, discussing and creating collectible design. For more information, please visit [designmiami.com](http://designmiami.com).
